Urban Design Lab, Earth Institute, Columbia University

Senior Research Staff Assistant

May 2017 - Feb 2018

- Developed a crowd-sourcing web application intended to maintain rain gardens in the city of New York.
- Assisted in implementing a sentiment analysis of Twitter data in Manhattan to understand if people are happier in parks.

Iran Open Data, Small Media

Open Data Officer

May 2017 - Feb 2018

- Anchored the Open and Shut - a medium zine on the issues of open data in closed societies.

Hyderabad Urban Lab

Research Associate

Jun 2013 - Apr 2016

- Engaged with local communities in projects involving research, activism and knowledge dissemination. The outcomes of my work include reports on the working conditions of garbage truck drivers, the informal economies of para transit (auto rickshaws), and maps of ecologically sensitive nesting spots of endangered vulture species in a tiger reserve.
- Imparted data and mapping skills among HUL interns, volunteers and researchers, thus building open source GIS and critical cartography skills as a core competency of the institute
- Created a repository of databases for the city of Hyderabad - by spatialising non-digital or closed format datasets (such as slums, heritage structures, police stations, and water bodies) and leading crowd-sourcing initiatives when there is no data available (public toilets and bus stops).
